Columbus, OH – September 20, 2018: Box Line Box LLC (BLB) is happy to announce the expansion of their services with the opening of a Consulting division.

BLB realizes that capturing the power of emerging technologies requires you to overcome complex systems integration challenges. They will be offering a complete range of consulting services to help clients with their technological needs.

Mike Evans, Founder and President of BLB stated, “This is where we find our passion. In a world of ever-changing systems, instruments and devices, it is critical to stay ahead of the curve. By offering consulting services, we can use our expertise to help clients reach their goals using new technologies that are influencing how we experience the virtual and the real world in unprecedented ways.”

Visit BLB’s website at boxlinebox.com for more information.
